## EXPERIENCE

---

### Internship

Mar. 2025 – Present

#### I-Tech Computer Education

I completed an internship at I-Tech Computer Education, where I gained hands-on experience in frontend development by working on a real estate website. This project helped me strengthen my skills in creating clean, responsive, and user-friendly interfaces, while also improving my ability to write structured and reusable code. In addition, I explored AI-powered tools and learned effective prompt engineering, which enhanced my productivity and problem-solving approach during development tasks..

## PROJECTS

---

### Real-Estate Website

- Developed a real estate website that allows users to explore various property listings, view detailed information, and securely book properties with an online payment option . Integrated a JSON files for showing the card types and API to dynamically fetch and display user reviews, enhancing the overall interactivity of the platform. Additionally, users can share their own feedback to improve engagement. The project was built using HTML, CSS, JavaScript, JSON, APIs, and Tailwind CSS. **Link:** rg-developers.vercel.app

### SpicesHub

- Created an online spices store SpicesHub using WordPress, designed for showcasing and selling a wide variety of spices with an attractive and user-friendly interface. Built with the Astra theme and enhanced using multiple plugins including Elementor, ElementorKit, WooCommerce, Contact Form 7, and Sticky Menu on Scroll. Implemented essential e-Commerce features such as product listings, shopping cart, online ordering, and contact forms to ensure a smooth shopping experience. Successfully managed the entire setup completely free, including hosting and domain, using smart configuration and resources. **Link:** dwordpress.free.nf

### Stone Paper Scissors Game

- In this game, the user selects an option and the computer makes a random choice from the three (stone, paper, or scissors). Based on the logic and conditions, the game displays whether the user wins or loses. **Link:** dspsgame.vercel.app

### Quiz App

- Built a responsive quiz app using **React.js** and **Tailwind CSS** with 10 MCQ-based questions. Implemented real-time validation (green for correct, red for incorrect), score tracking, and navigation. Designed a clean UI and deployed live. **Link:** quiz-app88.vercel.app

## SKILLS

---

**Languages:** HTML, CSS, JavaScript, React.js, PHP, Bootstrap, WordPress

**Tools:** VS Code, Sublime, Git, GitHub, Browser, ChatGPT

## EDUCATION

---

### Mahura Baal Vikas High School

SSC

2022

Scored: 73%

### Vidya Varidhy Vidyalaya

HSC

2024

Scored: 55%
